AMUNDSEN PLANS FOR ARCTIC TRIP

Discoverer of the South
Pole Talks

INTERESTINGLY OF HIS TRIP

Says Dog Meat is Fairly Good,
Only a Little Tough—
Dog Ate Dog.

NO ANIMAL LIFE NEAR POLE

The New York World says:
Capt. Roald Amundsen, the Norwegian explorer who discovered the South Pole in December, 1911, returned last night from Washington, where he delivered a lecture and received a gold medal.

Speaking of his proposed trip to the Arctic he said he hoped to leave San Francisco in August, 1914, and get back to civilization in 1920. He plans to drift with the ice north of this continent and be the first man to go from the Pacific to the Atlantic by the northern channel.

He intends to equip his ship, the Fram, with wireless apparatus in order to keep in communication with the rest of the world and to use it in his scientific work. It may come in handy should the party get in trouble.

"The Fram," said Capt. Amundsen, "will remain in Buenos Ayres about a year. It will be put in drydock shortly. If the Panama Canal is working by the time she comes out she will be taken through it and up to San Francisco. If the canal is not working she will be carried around through the Straits of Magellan.

"We will go directly up the coast to Alaska, where we will take on board some dogs and maybe an Eskimau or two. We will just drift around and may reach the North Pole, although we won't try especially hard to. That has been discovered once and that is plenty. We will study the currents of the ocean and the air, which will be of great help to weather forecasters. The Fram will be equipped practically as she was for the trip to the South Pole.

"On that trip we carried 120 dogs at the start, but we ate some and fed some of the others to the remaining dogs. We got them in Greenland and carried them to the South Pole. We took them back to Australia and now thirty of them have gone back into the Antarctic Circle again with the Australian expedition. Dog meat is fairly good. It is a little tough, but at that it is better than lots of steaks you get right here in New York.

"There was one peculiar thing about the trip to the South Pole. After we crossed the great ice barrier there was no sign of animal life. Just before reaching the barrier we saw great schools of whales—thousands of them in a single school—but at the other side of the barrier absolutely nothing, not even a gull. We built little piles of snow every three miles and in them put a piece of paper telling the exact longitude and latitude of the pile. There are at this time leading from the barrier direct to the Pole these piles of snow. We cut out about 9,000 pieces of snow crust to build them with.

There were but five men with me from the time we left the station until we reached the Pole. At the Pole and on the return trip we gathered much material, such as minerals, corals and the like. None of the minerals, so far as I know, bore precious metals, and the whole time I was within the circle I did not see any coal. It has been reported there are vast coal fields on the hidden continent. If they are there I didn't see them. Only once did we run into the Shackleton party, and then I did not see them myself. Some of Shackleton's men called on the men in my camp, more out of curiosity than anything else, I imagine.

"As food the men and myself had hot chocolate and biscuits for breakfast and pemmican, granulated milk and chocolate for dinner. We had but two meals a day. The men ate two pounds of pemmican a day and each of the dogs was given

a pound until it ran out and then we began to eat dogs."

Motor sledges do not appeal to Capt. Amundsen. Only dog sledges he thinks suitable to ice travel.

"The Fram," said Capt. Amundsen, "is practically unsinkable. It cannot be crushed. It cost the Government about \$75,000, and Norway has been amply repaid by the work that has been accomplished. I do not know what the trip to the South Pole cost, as I have not looked over the accounts yet. The trip to the north will cost something over \$200,000, of which \$100,000 has already been appropriated by Norway. There has been some talk of establishing wireless stations on Point Barrow and in Siberia so that observations may be taken with the apparatus on board the Fram. I do not know whether this will be done or not."

Capt. Amundsen, who laughed at the idea of wearing an overcoat in a climate so balmy as New York's, had a very bad cold last night. He's wearing his overcoat now.

TAFT'S ITINERARY AFTER
LEAVING WHITE HOUSE

Washington, Jan. 20.—President Taft has complete plans for the first year of his citizenship after March 4. He will take up the duties of a law professor at Yale at once, and will not make a world tour in the interest of peace and arbitration, as had been expected. He will reside in New Haven, but for three months of the year he expects to live in Canada.

Mr. Taft will leave Washington with Mrs. Taft and Miss Helen, on March 4, after the inauguration of Mr. Wilson, for Augusta, Ga., to become the guest of that city until March 27. He will stop at a winter resort hotel there. Charles D. Hilles, secretary to the President and Mrs. Hilles, also will be guests of the city of Augusta. C. P. Taft, the President's brother, and Mrs. C. P. Taft, John Hays Hammond and Mrs. Hammond are expected to visit the Tafts at Augusta.

Mr. Taft expects to leave Augusta in time to arrive in New Haven at the beginning of the spring term of Yale University. There he will reside at a local hotel, remaining in New Haven through commencement late in June. This commencement will be the thirty-fifth since the President was graduated and his class, that of '78, will hold a reunion. After commencement Mr. Taft will go to Murray Bay, Canada, for a three months' stay. On September 3, 4 and 5, the President will attend the annual meeting of the American Bar Association in Montreal. He has written a personal letter to Lord Haldane, the British Chancellor, asking him to attend the sessions.

From Murray Bay Mr. Taft will return to New Haven to take up the work of the fall term.

The President smilingly informed friends here that he had no idea of going into a law partnership with anybody.

QUICK REVISION OF THE STATUTES

Of New Jersey Urged By
Gov. Wilson

IN HIS LAST ANNUAL MESSAGE

To Legislature—Wants the
Odium Removed From
State's Laws.

DRASTIC CHANGES ADVOCATED

Trenton, N. J., Jan. 15.—President-elect Woodrow Wilson, in his capacity as Governor of New Jersey, sent his second annual message to the Legislature which convened here. It was his last formal appeal to the Legislature for the completion of the program of progressive legislation for which he declared himself when he took office.

Foremost among the laws advocated are a radical revision of the statutes governing corporations and better laws in the matter of drawing juries. The Governor recommends the commission form of government for cities, and speaks strongly in favor of economics in the State administration. In concluding he expresses the hope that New Jersey will ratify the constitutional amendments providing for a tax on incomes and the election of United States Senators by direct vote of the people. The Governor's message was written while the President-elect was in Bermuda, and constitutes his only political writing since election.

At the outset of the document there is a personal note of regret at leaving New Jersey and an expression of gratitude and obligation to those who stood by him in carrying out reforms. Almost without preface, however, the Governor calls attention to the laxity of the State's corporation laws. With the hope that New Jersey shall never again be called "the mother of trusts," the message is addressed to a Legislature that is, for the first time during the administration, Democratic in both branches.

The corporation laws of the State notoriously stand in need of alteration, the Governor says. They are manifestly inconsistent with the interests of the people in the all-important matter of monopoly, and as they stand, far from checking monopoly, they actually encourage it. The whole country has set its face against this method of forming vast combinations and creating monopoly, Gov. Wilson declares. "I am sure that the people of New Jersey," he continues, "do not dissent from the common judgment that our laws must prevent these things and prevent them very effectually."

The Governor says the statutes of the State should be amended to provide some responsible official supervision of the whole process of incorporation and provide, in addition, salutary checks upon unwarranted and fictitious increases of capital. No legitimate business will be injured or harmfully restricted by such action. These matters affect the honor and good faith of the State and should be acted upon at once and with clear purpose.

If your children are subject to attacks of croup, watch for the first symptom, hoarseness. Give Chamberlain's Cough Remedy as soon as the child becomes hoarse and the attack may be warded off. For sale by all dealers.

Wise.
"And darling," said Young hubby. "I want you to burn all of my love letters as soon as we return from the honeymoon."
"But, why, petty?" asked Mrs. Younghubby.
"Well," replied Younghubby, "if you don't burn them now they will make it hot for me later on."

When you want a reliable medicine for a cough or cold take Chamberlain's Cough Remedy. It can always be depended upon and is pleasant and safe to take. For sale by all dealers.

A vein of sentiment is sometimes all in vain.

RESCUE HOMES TO BE FOUNDED

Throughout Country—Which
Will be Under Eyes of
Investigators.

NO RESTRAINT FOR THE GIRLS

Washington, Jan. 18.—John D. Rockefeller, Jr., has set aside \$10,000,000 in bonds, title to which has not yet passed, for the purpose of establishing a charitable institution to reclaim white slaves and other women of that class, give them good homes and place them in positions in which they will be self-supporting.

Stanley O. Finch, chief of the United States Government bureau investigating the white slave traffic, will be in active charge of the work with the exception of the finances, which will be under the control of Mr. Rockefeller and his associates, largely men of prominence in the business world.

The headquarters will be in Washington. Throughout the country rescue homes will be established. These, in time, it is expected, will number 2,000 or more.

The women will be allowed to come and go as they see fit, and will be charged no board until they find positions. They will be under the eye of investigators at all times. When positions are found and they become self-supporting it will be suggested in each case that they find a home with some respectable family.

Another feature of the plan calls for the establishment of a home for consumptives at Denver. To this home not only consumptives but women weakened by other diseases will be sent.

According to persons who know the aims of Mr. Rockefeller, it is not his idea that the "red light districts" can be stamped out entirely, but he believes they may be lessened considerably. Mr. Rockefeller got his idea after serving as foreman of the New York grand jury which investigated the white slave traffic. He has come to the conclusion that the traffic cannot be stamped out unless some provision is made for the women.

The plans are to be made public on March 1, when a corps of inspectors now being collected by Mr. Finch are to start to work. At the same time the names of the girls in the charity were to be made public.

SUE FOR \$10,000,000 ON TITANIC LIFE LOSSES

New York, Jan. 17.—Fifty lawyers who hope to obtain for their clients more than \$10,000,000 damages for loss of life and property on the several attorneys for the White Star Line in the United States District Court to-day, the expiration of the time limit set by the court for filing suits. The limit was extended to February 11. The White Star Line in the United States is limited to \$100,000, the value of recovered wreckage and passage money. The American claimants allege that the line cannot claim this limitation, because it was responsible for the loss of life by reason of personal negligence.

The Earth's Area.
The area of the earth comprises 190,000,000 square miles. Leaving out of the account the 8,000,000 square miles about the poles that are unexplored, the land area forming the habitat of the human race is about 27 per cent. of the total area of the globe. And unless man

in some way learns to live in, on or under the waters, he can never have any more room on the earth than he has at present. But one need not personally worry over the matter. It will be a long time before the danger line is in sight. It is said that the United States of America could take care of all the inhabitants of the earth.—[New York American.

GIRL'S DEVOTION GETS
SWEETHEART'S RELEASE

Lexington, Ky., Jan. 15.—Through the devotion and intercession of Miss Elizabeth Thaman, an attractive young lady of this city, whom he met here during the holidays and who is said to be infatuated with him, G. G. Gilbert, a traveling salesman for the Elliot Madison Publishing Company, of Chicago, under indictment for entering a doctor's office here and stealing an overcoat while under the influence of liquor, was released from the county jail here last night, a free man, the indictment having been filed away.

When apprised of her sweetheart's predicament Miss Thaman appealed to Dr. Porter Prather, whose office was entered, not to prosecute, as it was the man's first offense, visited the Circuit Judge and Commonwealth's Attorney and finally interested a number of leading ministers of the city to save the accused from the penitentiary. Touched with the girl's devotion and out of sympathy for her, influences were set to work which resulted in Gilbert being set at liberty last night. The firm he is with will take him back and give him another chance. Miss Thaman declined to say whether or not she and Gilbert are engaged, but her persistent devotion is the talk of the court officials.

CITY ORDINANCE.

The City Council of the City of Hartford, Ky., do ordain as follows:

That the tax rate for general purposes in said city for the ensuing year be and the same is fixed at forty-five cents on each one hundred dollars (\$100) of taxable property in said city, as shown by the assessment of the City Assessor as of date, September 15, 1912, and equalized by the Board of Equalization, and \$1.50 poll tax on each male resident of said city over 21 years of age, and \$1.00 on each dog over 4 months old September 15, 1912, in said city, owned or harbored by a resident of said city.

Said tax is levied for the purpose of paying off and discharging the balance of any indebtedness that may be owing by said city, and for the further purpose of maintaining and improving the streets and alleys, street lights, salaries of officers and employees and all other incidental expenses of said city government.

That the tax rate for the purpose of paying interest on the sewer bonds and creating a sinking fund for the final redemption of said bonds, be and same is fixed at thirty cents on each one hundred dollars (\$100) of taxable property in said city as shown by the assessment of the City Assessor as of date, September 15, 1912, and equalized by the Board of Equalization.

It is further ordered that all of said tax shall be due and payable on the first day of February, 1913, and if not paid on or before the first day of April, 1913, a penalty of 6 per centum shall be added to same and collected with said tax by the marshal of said city; then upon all taxes unpaid upon the first day of each month thereafter an additional 1/2 of 1 per cent. shall be added and collected by the said marshal.

Approved January 9, 1913.

MYSTERIES OF PLANETARY VISTA

May Be Revealed By New
Photography.

ULTRA VIOLET AND INFRA-RED

Rays Will Be Used to Exclude

TAKES A "SHOT" AT THE MOON

Baltimore, Md., Jan. 18.—Photography by means of rays of light invisible to the human eye has enabled Prof. R. W. Wood, head of the Department of Experimental Physics of Johns Hopkins University, to span in effect the 240,000 miles separating the earth from the moon and solve at least partially the problem of centuries as to the physical composition of that satellite.

This fact is touched upon in the last report of the Smithsonian Institution, just issued, which forecasts great results from the invisible ray photography, in which Prof. Wood is the world's pioneer.

Prof. Wood to-day discussed the work which he has been doing in the field of experimental photography. On his desk were dozens of pictures, taken by him in this country and Europe, showing the curious results obtained by his method.

His picture of the moon revealed to him that in the vicinity of the high "crater mountain" known to astronomers as Aristarchus, there were large deposits of sulphur. These photographs were taken with "ultra-violet" rays, the shorter light waves, which lie beyond the limits of the visible spectrum. At the other end, beyond the red, are waves too long for the eye to perceive, and these are the "infra-red."

In this ultra-violet photographs of the moon, taken through a film of silver, which excluded the visible rays, Prof. Wood saw near Aristarchus a dark mass. Experiments revealed that this could have been reflected by no other substance than a deposit of sulphur. His experiments were exhaustive and they proved to himself and the world of science that his conclusions were correct.

Now Prof. Wood is contemplating a series of photographs of the planets by means of ultra-violet and infra-red rays, by which he hopes to pierce the veil of mystery surrounding their nature.

"While ultra-violet rays helped me to determine the nature of the deposit on the moon," he said, "the infra-red rays should prove of value in another way.

"These rays are practically absent in the atmosphere. Consequently a photograph of a planet surrounded by atmosphere should reveal that planet as distinctly as though there were a vacuum between it and the camera. It is possible that this might even allow me to photograph Jupiter, which has around it an envelope of vapor that completely hides the planet."

Here is a remedy that will cure your cold. Why waste time and money experimenting when you can get a preparation that has won a world-wide reputation by its cures of this disease and can always be depended upon? It is known everywhere as Chamberlain's Cough Remedy, and is a medicine of real merit. For sale by all dealers.

UNEARTH ANCIENT CITY OF JEWISH HISTORY

Jerusalem, Jan. 18.—Messrs. MacKenzie and McAllister, working under the auspices of the Palestine exploration fund, have unearthed the ancient city of Bethshemesh, about 30 miles from Jerusalem, which was the city of the tribe of Judah and allotted to the priests. Bethshemesh figured in early Jewish history in connection with the calamity that befell its inhabitants on account of their irreverent handling of the ark.

What has become of Hartford's Commercial Club? It would be a good time now to reorganize it.

So far there have been no fights in this vicinity as to who knew most about how high the flood got in past years.

Dave Dugman, editor of the Meade County Messenger, is one of the spiciest paragraphists on the Kentucky press.

Ladies who are in favor of woman suffrage should remember that they must acknowledge to being at least thirty-five years old before they are eligible for the Presidency.

Editor John S. Lawrence, of the Cadiz Record, has been chosen by the State Electors at Frankfort to carry the official vote of Kentucky to Washington. It is a nice honor, worthily bestowed.

Mr. Andrew Carnegie is a great philanthropist in the book line, but did anybody ever hear of him endowing a food supply house for the worthy, starving poor, or a dry goods emporium for ragged little children?

A man living at Ft. McPherson, Ga., wrote to Postmaster General Hitchcock wanting to know how he could send a baby by parcels post. Evidently trying to beat the stork out of its job, and he shouldn't be allowed to do it.

A Boston scientist has made the discovery that modern cooking contributes to cancerous growths in the stomach. In the words of a rancorous Bull Moose at the Chicago Convention: "We must teach the people to beware; they stand on the verge of an abscess!"

It has been ascertained by persons who went carefully into the subject that the average value to the community of the normal adult between the ages of 18 and 45 is \$700 per year. However, knocking out the word "average," there are probably some persons who are not worth fifteen cents.

The Mayfield Messenger says: The person who is now living in the city of Mayfield is 1,101 miles from New York City, which is said to be at this time the largest city in the world.

Come to Hartford! This is 145 miles nearer New York City than Mayfield.

Of course there are some farmers—including tenants—who seem to be almost compelled to raise tobacco for a livelihood. There are certain environments and conditions that bring this about. These are the men who should always stand together for organization—for pooling. This is a critical time in the history of tobacco raising. But good crops and a firm stand will win out.

As yet Gov. McCreary has not made any formal announcement of his candidacy for U. S. Senator, although it is said he has been urged to do so by some prominent politicians. If Gov. McCreary decides to do so, he will certainly violate his pledged word to the voters here at Hartford and elsewhere. He said here that all he asked—all he ever would ask—was that he be elected Governor, thus rounding

out a brilliant career. The voters granted his request; now will he keep his pledge?

A correspondent at Lexington—who evidently, like all daily paper reporters, gets paid for his stuff by the yard—recites the following list of probable Democratic candidates for Governor: Congressman J. Campbell Cantrill, State Auditor Henry M. Bosworth, Attorney-General James Garnett, State Treasurer Thomas Rhea, State Commissioner of Agriculture John W. Newman, Congressman Owsley Stanley. In the event he is unsuccessful in his race for the Senate, and Mayor W. O. Head, of Louisville.

Along this line the Elizabethtown News says: "The Democratic party in fifty years has tried but twice to elect a State officer Governor. The two were Attorney-General Wat Hardin and Auditor S. W. Hager. With this experience before us, we are not apt to tempt Providence again."

STATE'S CHAMPION CORN GROWER ASPHYXIATED

Washington, Jan. 20.—Lester Bryant, of Rockfield, Warren county, Kentucky's star corn grower, was found dead of asphyxiation in his room at 301 Delaware avenue this afternoon. The boy had evidently blown out the gas by mistake. He had undoubtedly attempted to reach the door when the gas was overpowering him, for his body was found on the floor near the door. Young Bryant was one of many Southern lads who came here on invitation of the Department of Agriculture for a prize for his prowess as a corn grower. He was a typical country boy and knew little of the modern appliances of the city.

Before he left Louisville young Bryant told with glee of his expectations of pleasure in seeing the capital. He went to his rooming house on his arrival in Washington at midnight Sunday, and it was not until after noon to-day that his body was found. The Bryant family at Rockfield has been notified and will be asked to decide as to the disposition of the body.

HENDERSON GRAND JURY AFTER TOBACCO BUYERS

Henderson, Ky., Jan. 18.—The grand jury has summoned before it representatives of the American, Imperial, Gallaher, Ltd., and the John Hodge Tobacco companies to inquire into the charge that the trade in tobacco in this county has been restrained by an illegal combination among the buyers representing these concerns. The St. Louis district men are still holding out against the offer of seven cents.

ETHEL MYRTLE ALLEN DIES IN FORDSVILLE

Ethel Myrtle Allen, aged 10 months, foster daughter of John F. and Mollie P. Allen, died Sunday morning, January 19, at 4:10 o'clock, after an illness lasting several days, at her home in Fordsville. Interment occurred at the Olanton cemetery at 2:10 o'clock on the evening of the 20th, after funeral services at the Baptist church conducted by Rev. J. T. Lewis, of Fordsville.

Mrs. Allen's mother, Mrs. Melvin Allen, has been very ill since Wednesday at her home in Olanton and was unable to attend the funeral.

OLD HOME BURNED—USED FOR TOBACCO STORAGE

The old Dr. Lockhart home, located just above Ensor, Ky., was destroyed by fire shortly after midnight Saturday night. The building had not been occupied for some time, and was used mostly as a place to strip and bulk tobacco. George Sinnett, who lives in that neighborhood, had about 5,000 pounds of tobacco in the house which was totally destroyed. The origin of the fire is unknown, as there had been no fire on the premises. A man of the name of Balee, had recently finished stripping his tobacco and removed it from the house. The loss on the house was about \$100 and the tobacco about \$300.

REVISION WILL BE DOWNWARD

In Extra Session Tariff Legislation.

THE LUXURIES WILL BE TAXED

To Fall Amount So That the Necessaries Will Bear Less Burden.

THREADBARE PLEA OF TRUSTS

(By Clyde H. Tavenner, Congressman-elect.)

Washington, Jan. 18.—"We want to get a large amount of revenue on luxuries, so that we can put a less tax on the necessities of life."

This is to be the basis of the tariff revision in the Sixty-third Congress, according to Chairman Underwood of the Democratic Ways and Means Committee. The above expression is Mr. Underwood's. He made it directly to one of the big silk manufacturers who was testifying before his committee.

The indications are that a feature of the Democratic policy is likely to be free dressed and rough lumber, shingles, laths and fence posts. The members of the Ways and Means Committee, while asking questions of witnesses, appeared to be in favor of that policy.

Free meats, it is rumored, may be a part of the tentative tariff plan the committee will frame to submit to the extra session.

The very air in the corridors outside of the committee room seems to breathe a feeling that the Democratic leaders intend to see to it that the promises made to the people before election are to be religiously carried out after election.

High protectionists declare even the slightest tariff revision downward would hurt our business, and lessen our exports.

"The slightest revision downward will throw men out of work," is the cry of the multi-millionaire tariff trust heads who have been getting an ever-increasing amount of protection all these years while at the same time importing foreigners to take the places of American workers and paying their workers little more than a pittance.

Is there anything in the argument of the rich high protectionists? If they are right in their contention that some tariff revision would lessen our exports, one would naturally think that Great Britain, with free trade, would have perished long ago.

But Great Britain is not perishing. For the month of November the total amount of trade in Great Britain was \$620,000,000. The increase in exports as compared with the "boom" figures of November, 1911, was \$11,860,000! There is now full employment for labor in that "benighted" free trade kingdom. Even the Protectionists are forced to admit "a cycle of splendid trade and national well-being," and that there is food for reflection in these figures. They show there is nothing to the contention that revision downward of the tariff is likely to ruin business. Honest business men of the country fully realize this, and have no apprehensions because of Democratic ascendancy.

SELLS A WOMAN LAND THAT NEVER EXISTED

The Owensboro Messenger says: A "Get-Rich-Quick Wallingford" stunt came to light Wednesday when A. P. Carico was indicted by the grand jury for obtaining money under false pretenses from Mrs. Clara M. Hagan.

Some months ago a handsome, well-groomed individual ingratiated himself into the confidences of Mrs. Hagan, and let it be known casually that he was making a proposition to a select class of people whom he desired to become associated with him in a "sure money maker" on a large scale. Mrs. Hagan was not asked to invest any money direct, but Carico let no opportunity pass without showing her the advantages of placing her money with a concern that was trustworthy and profitable, especially as it was represented by such men as himself. He showed every courtesy to Mrs. Hagan.

Naturally Mrs. Hagan became in-

terested in the proposition about which she had heard so much, and Carico took the trouble to explain to her that he had a large tract of land in Mexico, which was soon to be developed and would make the proprietors of it very wealthy. He displayed illustrations of the purported location. Mrs. Hagan gave him her money in exchange for a slice of this property. It developed that Carico owned no lands.

REFUGEES AT CALHOUN STILL IN BAD CONDITION

Calhoun, Ky., Jan. 20.—Green river came to a stand here Sunday, and fell a half inch last night. It has fallen short of the 1883 rise but six inches. The greatest damage in the history of high waters in this section has been done. Hundreds of families have been rendered homeless, many houses in the lowlands have been swept away by the current. More than 100 persons are quartered in the court house, and hardly a home in the city is without a family of the refugees. All the school houses and churches in the flood region are being used by the sufferers. There are but three or four families left in the town of Ramsey, a place of 400 or 500 immediately across the river from Calhoun.

AGED WOMAN DROWNED BY BOY'S BAD DRIVING

Carrollton, Ky., Jan. 16.—Mrs. Jacob Hendrix, 48, lost her life this afternoon by drowning while fording the Whites Run on the Rugby road. Mrs. Hendrix had been in Ghent a week, nursing a relative, and was making the trip home in a buggy with Oranus Hopkins, a 9-year-old negro boy, as driver. The bridges on the Ghent road are under water and the boy, not being familiar with the roundabout way, got on the wrong road and drove over an embankment, the buggy turning over and over. The child lodged against a fence and was rescued, but Mrs. Hendrix was drowned before assistance could reach her. Her body was recovered by Dick Lacy, a fisherman. Mrs. Hendrix is survived by her husband and two grown sons, one brother and two sisters.

The horse was cut from the buggy and saved.

ODD COLLISION BETWEEN TRAIN AND STEAMBOAT

Clarksville, Tenn., Jan. 19.—A freight train on the Memphis branch of the Louisville & Nashville railroad collided with the packet boat Lochie S., in the substance of a news item which has just reached here. This singular accident resulted from the flooded condition of this section and occurred at Cumberland City. Backwater from the Cumberland river stood over the L. & N. tracks at several places and the boat had unknowingly been navigated to a point over the railroad's right-of-way. It being after night, the engineer on the train could not see the craft, and not understanding steamboat signals, was almost upon the boat before he knew it. The emergency brakes were applied, but before the train could be brought to a stand the boat had been side-swiped. No injury was done the locomotive or train, but the packet was somewhat damaged, so far as the symmetry of her outlines was concerned, by the collision.

The boat people claim they were within their rights as long as the craft was in the waters of a navigable stream; the railroad people say they were within their rights as long as the train was on the company's tracks, and a hot dispute has resulted as to who the trespasser was when the accident occurred.

Both railroad and rivermen say it is the most remarkable accident on record, and may result in an extraordinary legal tangle.

"HIGHWATER" NAME OF BABY BORN IN FLOOD

The Owensboro Messenger says: While the waves were rocking the home of Mr. and Mrs. James Basham, of Stanley, and the water was covering the entire lower floor of their home, the stork paid a visit. A baby girl was born. "Highwater" Basham is the name that the fond parents have given the flood-bound baby girl. Last night the mother and the baby were reported to be getting along nicely.

A new bulletin of the Government estimates the present population of the United States to be 96,496,000 and that the per capita is \$32.72.

SHE TALKED ABOUT IT.

A very good thing to do, especially when it was her own doctor that she talked with. She wanted to know about Hall's Hair Renewer for falling hair, dandruff, and for promoting growth of the hair. Now she is going to use it, will have every confidence in it. No coloring of the hair, not in the least.

The lecture was one of the finest and most entertaining ever heard here, where many noted lecturers and entertainers have been. It was clean, lively and elevating, and was received by the audience with the highest delight.

GRIEF OVER DEATH OF WIFE HASTENS DEATH

Mr. John Lindauer, an aged and respected man of Stanley, Ky.,

passed away Thursday afternoon at 4 o'clock from infirmities incident to old age. He was 79 years of age and known over the entire county. About two months ago his wife died, and since that time grief over his loss made him grow rapidly worse.

He is survived by eight children: Mrs. Gertrude Bushcutter, of Henderson; Mrs. Theodore Breidenbach, Mrs. Thomas Hardy and Miss Pauline Lindauer, of Stanley; Seidel, Frank, Pius and John Lindauer, also of Stanley.

An Appreciated Compliment.

Under the heading "A Little Old, But Pretty and Spry," the Todd County Progress in a recent issue paid The Herald the following compliment:

"The second-best weekly newspaper in all Kentucky, the Hartford Herald, has just entered upon its 39th year of publication, and while a little old in years, it's as spry and pretty as a maiden of just sixteen sweet summers."

"The Herald is conducted by Proprietor Frank L. Felix and Editor Heber Matthews, a tip-top pair to draw to. The Herald is always a model of a neat 'make up' and never fails to 'hit the bull's eye' in its editorial columns. We have known the Herald's modest editor from our youth up and Bro. Matthews knows the printing business like Timothy did the scriptures, from the 'hell box' to the top round of the editorial chair. Continued success to the Herald."

THREE LITTLE VICTIMS OF PTOMANE POISONING

The Owensboro Messenger of Sunday says: Robert Hari, thirteen years of age, was the third victim of ptomane poisoning in the family of Mr. and Mrs. Chas. A. Hari, of McLean county, who formerly resided in Daviess county. His death occurred last Saturday afternoon, and

was attended with violent suffering.

Several days ago seven children of Mr. and Mrs. Hari were allowed to drink milk that had remained in tin cans for three days. As a result three are dead, and an eight-months-old baby is critically ill. His death was momentarily expected Saturday. Three children are in good health, and as yet have shown no symptoms of poisoning. Maggie, aged four, was the first victim, Bernard, aged seven, who died Thursday, was the second, and Robert, aged thirteen the third.

A. S. of E. Notice.

The Ohio County Union of the A. S. of E. will convene at the court house in Hartford, January 31st, at 10 o'clock a. m. All locals are requested to be well represented, as there will be some important business to attend to. The County Board of Directors will be in session at the court house January 25th at 10 o'clock. Any one who has any suggestion to make to the Board will be gladly heard, and any member who so desires will be received in said meeting. We wish to make this the banner year for the Society in this county and want the help of the people. Any section of the county that wants an organizer will please apply at the meeting of the board.

HENRY M. PIRTLE, Sec'y.

BEAVER DAM.

Jan. 20.—The revival meeting at the M. E. Church is still in progress with considerable interest manifested and quite a number of conversions.

The meeting at the Baptist Church was largely attended Sunday, it being the regular meeting day. They also had the largest attendance at Sunday School since the Sunday School was organized. Rev. A. B. Gardner, who was the committee to solicit funds to pay for the parsonage purchased three years ago, reported that he had succeeded in collecting the amount necessary and also said that the parsonage was paid for and the church was out of debt. The finance committee also reported that they had secured the pastor's salary for 1913, so Rev. A. B. Gardner will be the pastor another year.

The meeting of the Democrats of the two precincts Saturday was a very harmonious gathering, there being a good number of the farmers from the country present. Everybody seemed to be interested in the efforts of the party. Mr. Otho Dexter was chosen committeeman from West Beaver Dam and Mr. Ellis Smith from East Beaver Dam. Both are young men and hustlers.

Mr. B. M. Jones was on the streets this morning, all smiles. We learned that Mrs. Jones had presented him with a 9-lb. boy this morning. Dr. S. D. Taylor officiating. Mother and child doing well.

Mrs. U. J. Westerfield, of Lamar, Col., is visiting her daughter, Mrs. B. M. Jones.

Mrs. Tim Taylor, of Standford, Ill., is spending the winter with her father and mother, Mr. and Mrs. J. D. Williams.

Post-Office Primary.

Marion, Ky., Jan. 18.—Leading his nearest opponent by 54 votes, Jesse Olive, a prominent hardware dealer, won in the postmastership primary election to-day. The election was held at the instance of Senator-elect James, and he paid all expenses and announced in advance he would endorse the man selected. There were eight candidates, and the election aroused great interest. Only Democrats were allowed to vote.

OIL FIELD NEWS.

The Rough River Oil and Gas Co. are progressing nicely with their well, which is now down about 1,250 feet. They encountered a little crook in the well a few days ago, but soon straightened it out.

The second well of the West Kentucky Oil Co., is getting along all right and producing a nice stream of first-class oil. They drilled down about 12 feet deeper in this well a few days ago, which increased the oil output considerably. A drilling bit was lost in their third well on the Howard farm a few days ago, which caused some delay. They secured tools, however, and are now spudding for the bit. This well is down about 1,450 feet.

The Wood Oil Co. people are drilling right along in their well on the Cox farm and are down about 1,500 feet. Mr. Wood, president of the company, and Mr. M. H. Fitzgibbons, general manager, will arrive to-day to look over the field.

Altogether the oil business here is quiet but encouraging.

SEED CORN.

Last spring I had more orders for my Boone County White Seed Corn than I could fill, so if you expect to get seed corn from me this year, you should order now and I will ship at any date you name. While my Boone County White Seed Corn raised in nineteen twelve is fine and made an average of ninety bushels per acre, yet I am confident I will not have enough to supply the demand.

The seed corn will, as usual, be shipped in the ear, in one-bushel wooden crates and will run about sixty ears per bushel. The price remains at three dollars per bushel, as before.

RICKETS.

Jan. 20.—Several from this place went to Bethel Sunday, but Rev. Vanhoy failed to fill his regular appointment.

Mr. Thorton Patton and family have returned to their home in Philo, Ill., after two weeks visit with his parents, Mr. and Mrs. M. G. Patton.

Miss Eunice Lee, of Beaver Dam, spent last week with her grandmother, Mrs. Patsy Lee, of this place.

Miss Matilda Norris, of Concord, spent from Friday till Sunday with Miss Iva Royal.

Messrs. Anthony and Luther Daniel, of this place, attended the play party at Mr. Albert Wright's, of Horton, recently.

Mrs. Tex Griffin, of Bennett's will spend this week with her daughter-in-law, Mrs. Pearl Griffin. Misses Edna Moore and Minnie Johnson and Mr. Owen Johnson, of Sanderfur's Crossing, spent Sunday with Miss Clara Patton, here.

The most of the farmers here are done stripping tobacco.

The A. S. of E. met at the school-house here Saturday night.

Killed by Joy at Seeing Son.

Enid, Okla., Jan. 16.—Emotion killed J. W. Ralder, 60, of Greenville, Ky., here to-day. He fell dead when he saw a son, who left home several years ago, and for whom he had been searching. The boy's mother dreamed he was in Oklahoma and sent her husband to make a search. Young Ralder left for Kentucky with his father's body.

GIANT MERGER
OF COAL MINES

Being Planned By T. Coleman DuPont.

TO CONSOLIDATE PROPERTIES

In Ohio and Muhlenberg Counties—Millions of Dollars in Deal.

THINK IT WILL GO THROUGH

Greenville, Ky., Jan. 20.—A deal of great importance to the coal operators of Western Kentucky, and particularly those of Muhlenberg and Ohio counties is on now and promises to be carried to a successful conclusion within the next few days. The proposition is the purchase and consolidation of all the mines in Ohio and Muhlenberg counties.

Daniel Cauffman and L. L. Benham, of Wilmington, Del., representing T. Coleman du Pont, the millionaire powder manufacturer, are in the field here working with S. J. Gish, a capitalist of Central City, to effect this combination.

The object of the efforts of these men is to organize the thirty-two mines in the two counties into one gigantic corporation to be known as the Du Pont Coal Company, after which first mortgage bonds will be issued on the property for the entire cost of the different properties and the Du Pont Coal Company will pay for the different properties with these first mortgage bonds which will bear 6 per cent interest.

The Du Pont Coal Company will then issue stock to the same amount of the bonds and will give the selling operators 40 per cent of the stock and retain the remaining 60 per cent of the stock so as to be able to control the corporation. The stock part of the deal will be given to the operators as a bonus, the properties being purchased with the first mortgage bonds.

There are twenty-five working mines in Muhlenberg county and seven in Ohio county, making thirty-two in all, and the promoters claim to have options on eighteen of the mines and are very confident of securing options on the remainder.

The Du Pont Coal Company, if the deal goes through, will operate the entire block of mines through one general management and one general office, the general office of the company in all probability being located in Central City. The organization of the concern is being patterned after the Du Pont Powder Company, commonly referred to as the "Powder Trust." This company, if it is organized, will be able to control the greater portion of the output of Western Kentucky coal, as for the last two years and for perhaps longer Muhlenberg county has mined more coal than any other county in the State.

It is thought that a great many of the general managers of the companies entering the combination would be referred by the Du Pont Coal Company, but as for the officers of the new corporation, it is thought that the new company would select them, not necessarily from this field, but they would in all probability be selected from different parts of the country, and would, of course, be selected for their knowledge and efficiency, as efficiency appears to be the chief argument for the consolidation. What the policy of the new company would be toward organized labor is not known, but as all of the miners of the two counties involved are organized, it is supposed that they would remain so.

Several million dollars are involved in the deal, and if it is consummated it will represent, possibly, the largest transfer of property in Western Kentucky at any time. Whether the organization would be of benefit to the people generally of the two counties and to the public, is a question.

ABOLISH INAUGURAL
BALL, SAYS MR. WILSON

Trenton, N. J., Jan. 18.—President-elect Wilson favors the abolishment of the inaugural ball. This became known to-day when he sent a letter to William Corcoran Eustis, at Washington, chairman of the Inauguration Committee, asking him to consider the feasibility of omitting it.

Mr. Wilson's letter follows: "My Dear Mr. Eustis: "After taking counsel with a great many persons and assessing as well as I could general opinion in the matter, I have come to the conclusion that it is my duty to ask you to consider the feasibility of omitting the inaugural ball altogether."

"I do this with a great deal of hesitation, because I do not wish to interfere with settled practices or with reasonable expectations of those who usually go to enjoy the inauguration, but it has come to wear the aspect of a sort of public duty because of the large indirect expense upon the Government incidental to it, and because these balls have ceased to be necessary to the enjoyment of the visitors."

"I hope most sincerely that this request will in no way embarrass you, and that I have not too long delayed in making the suggestion. With cordial regards, sincerely yours, WOODROW WILSON."

After any Sickness

nothing so rapidly restores health and vigor as SCOTT'S EMULSION. It is the essence of natural body-nourishment, so medically perfect that nature immediately appropriates and distributes it to every organ, every tissue—feeding, nourishing and restoring them to normal activity.

SCOTT'S EMULSION is not a patent medicine, but is nature's body-nourishment with curative, upbuilding properties and without a drop of drug or alcohol. It contains superior cod liver oil, the hypophosphites of lime and soda with glycerine, and is so delicately emulsified that it enters the system without digestive effort—builds, tones and sustains.

After croup, whooping cough, measles and other child ailments it is nature's ally in restoring health.

After grippe or pneumonia it imparts strength and health, and for colds, coughs, sore, tight chests and throat troubles SCOTT'S EMULSION gives the greatest relief known.

BEN JOHNSON MAY HEAD
THE 1914 COMMITTEE

Our Congressman Has Strong Backing to Succeed Chairman Loyd.

Washington, Jan. 18.—While Representative Ben Johnson was confined to his room by illness today, it was learned that he is more than likely to be the next chairman of the Democratic Congressional Committee, and in such capacity conduct the national campaign of 1914. For the first time it became known that Chairman James T. Lloyd will not stand for re-election and that Speaker Champ Clark, Representative Oscar Underwood and other House leaders favor the election of Mr. Johnson.

The Committee will be called together by Mr. Lloyd shortly after the extra session assembles; the chairman will announce his decision not to accept another term and according to the present program Mr. Johnson will then be chosen if he will accept the honor. He has not yet made up his mind whether to accept or not, but his friends believe that he will take the position.

Mr. Johnson has several times before been mentioned for the chairmanship, but has never been a candidate because Mr. Lloyd has wished to succeed himself heretofore. The present chairman's decision changes that situation, and Mr. Johnson is the most prominently mentioned Congressman for the place. If he decides to become a candidate his election is considered a matter of course.

The Kentuckian will then have to fight the first battle for Democrats after their 1912 success. Mr. Lloyd's victory in 1910 showed the way to the greater success of 1912, and it will be for Mr. Johnson to hold what has been gained. Speaker Clark is a firm believer in the political abilities of the Kentucky member, and is backing him for the chairmanship.

At Mr. Johnson's residence tonight it was said that he was kept to his bed all day by an old ailment which may require a slight surgical operation.

BENNETTS.

Jan. 20.—The A. S. of E. lodge at Bennett's was largely attended Saturday night. Rev. Balmain was absent and Mr. Austin filled his place.

Mr. Albert Rains, of Rosine, visited his sister, Mrs. Person McDowell, the past week.

Miss Catherine Rowe, of Williams Mines, is visiting friends and relatives at this place.

Miss Hallie Allen, of Concord, visited Miss Jennie McDowell Saturday and Sunday.

Messrs. Fred and Albert Tatum, of Simmons, visited relatives in this neighborhood Saturday night and Sunday.

Mr. T. H. Tatum, who has had pneumonia, is able to be out again. The people were disappointed at Bethel Sunday on account of Rev. Vanhoy being absent.

Miss Lennis Laws is on the sick list.

Mr. and Mrs. Willie Chapman, of , visited Mrs. Chapman's parents, Mr. and Mrs. Strother Hawkins, Saturday night and Sunday.

Mr. Wilson Jones, of Concord, was in this neighborhood Sunday afternoon.

Mrs. Lonnie Maples was the guest of her sister, Mrs. Cicero Bryant, of near Rosine, Saturday and Sunday.

DEATH OF MRS. WALLACE—
ESTIMABLE WOMAN GONE

As the morning dawned, Saturday, January 11, 1913, the white-winged messenger of death stopped at the home of G. Davis Royal, in Fordsville, and gently separated the mortal from the immortal of Mrs. America A. Wallace—the mortal to be consigned to the tomb in "God's Acre," while the immortal was wafted by a convoy of angels to that "Holy City, whose Builder and Maker is God."

On Tuesday, October 8, 1912, Mrs. Wallace, whose health had been poor for quite awhile, left her home, about two miles east of Hartford, accompanied by her son and daughter-in-law John W. and Addie Wallace, who had been living in Texas for about 4½ years, and came to Fordsville to visit her two daughters, Mrs. Hattie Royal and Mrs. Veola Cheek, her son Ira L. Wallace, and brother, Felix A. Burdett, who reside some three miles west of Fordsville, and other relatives, but she was stricken down only three days after reaching the first named place. Notwithstanding all that loving hearts and hands and medical skill could do, was done, she grew steadily weaker and after a brave 90-days struggle, the "grim reaper" won the battle and

as bravely as she had fought for victory, she as bravely hoisted the white flag and surrendered, on condition that she have an everlasting abiding place in "the House not made with hands, eternal in the Heavens."

She was the daughter of John T. (Jack) and Harriet M. Burdett and was born April 16, 1854; joined the Methodist Church when eleven years of age and lived a consistent christian life. She leaves a husband, J. T. Wallace, two daughters, eight sons, one brother and five grandchildren to mourn her loss. She was taken to Washington, her old home church, where her funeral was preached at 10 a. m. Tuesday, January 14th, by Rev. J. T. DeMonbrum, of the Fordsville Circuit, who delivered a splendid sermon, after which her remains were conveyed to the Aetna cemetery, where, in the presence of quite a concourse of sorrowing relatives and friends, she was gently lowered in the grave beside her two little daughters, Rosa and Effie, who had long since "gone on before."

Almost at the very beginning she knew of the dangerous nature of her disease and later on she was fully apprised of the almost utter hopelessness of her case. Realizing the end was near, she talked with the loved ones at her bedside, and was calm and serene in death. She bore her suffering with great christian patience and resignation and died in the triumph of a living faith, robbing the grave of its victory and death of its sting.

Truly a good woman has gone to her reward. Good as a wife, good as a mother, good as a sister, good as a friend and neighbor, good in the home and family circle, good as a christian, in short, good in every walk and relation of life, in every sense that the term implies. To her husband, ten children and brother, whose loss is irreparable and grief unspeakable, we would offer comfort by pointing to "the Man of Sorrow," Who also tasted death. So let's work and keep the faith and look forward to a glorious resurrection and family reunion in that land beyond the skies, where good-byes are never said, and farewell tears are never shed.

SON-IN-LAW.

CLEAR RUN.

Jan. 20.—Heavy rains have done a great amount of damage in this locality.

Farmers are busy stripping tobacco.

Mr. Zack King, of East Hartford, passed through here Saturday en route to Mr. Willie Howard's farm, where he will reside this year.

Mr. Alonzo Crowe lost 5,000 pounds of hay during the high water.

Mrs. Tom Hamilton and children, Ora and Emma Viola, of Spencer county, Ind., are visiting her mother, Mrs. A. T. Handley. They were forced to leave home on account of the high water.

Mr. and Mrs. Ira D. Funk visited Mrs. Funk's parents, Mr. and Mrs. J. A. Raymond, of Adaburg, Saturday night and Sunday.

Mr. J. T. Funk and daughter Ethel Gay, visited relatives at Beaver Dam Sunday and Monday.

James Douglas, the little son of Mr. and Mrs. C. T. Funk, was quite ill Thursday night.

Mr. Orlando Hyde Park passed through here Saturday en route to his home from Sunnydale, where he is teaching.

Mr. Philander Trogden, of this place, moved to Owensboro last week. Mr. Christopher Hoover and family, of Beaver Dam, will move into the property vacated by Mr. Trogden.

Prayer meeting is progressing nicely and regularly at the Baptist Church here.

Messrs. Eb and Elvis Funk spent Saturday evening with their cousin, Charlie Peemster, of Palo, who is very ill of pneumonia.

Cut the High Cost of Living.

W. H. Chapman, Winnebago, Neb., tells how he did it. "My two children had a very bad cough and the doctor's medicines did them no good. I got a bottle of Foley's Honey and Tar Compound, and before it was all used the children were free and cured of their cough. I saved a doctor's bill for one 25c bottle of Foley's Honey and Tar Compound." A mean, stuffy cold, with hoarse, wheezy breathing is just the kind that runs into bronchitis or pneumonia. Don't trifle with such serious conditions but take Foley's Honey and Tar Compound promptly. Contains no opiates. Sold by all dealers.

SOME ANXIOUS PARTIES
WANT THEIR \$34.72 QUICK

Washington, Jan. 18.—The Treasury Department gave out a news item a few days ago that tucked away in the vaults of the Treasury there was \$34.72 for ever man, woman and child in the United

States, the per capita of the reserve fund.

Director of the Mint Roberts yesterday and to-day received 500 letters from all parts of the country, in which the writers demanded that they be sent their \$34.72 forthwith. One man, writing from the distant West, asked that his be sent in \$1 bills and pennies.

SIMMONS.

Jan. 20.—The mines resumed work here Monday, after a week's suspension on account of back water from Green river.

Mr. J. D. Hill is very sick with tonsillitis.

Mrs. J. W. Keown and daughter Opal, of Central City, visited Mr. and Mrs. G. C. Keown last week.

Messrs. Harrison Crowe and J. R. Norman visited relatives at Select last week.

Several from here went to Rockport last Tuesday to see the high water. The old people there say it was about 14 inches higher than the 1883 rise.

Dr. Horace Pendleton, of Williams Mines, was here Tuesday on business.

EASTVIEW.

Jan. 20.—Messrs. Bill Nicely and Frank Westerfield have smallpox.

The infant child of Mr. and Mrs. Murray Mayfield is on the sick list. Estill, the four-year-old son of Mr. and Mrs. Eli Martin, is dangerously ill.

Miss Eva Martin, of Buford, spent Saturday and Sunday with Mr. and Mrs. W. T. French.

Mr. and Mrs. Ben Sharp, of Laffoon, spent Saturday night and Sunday in this vicinity.

Born to the wife of Mr. Clarence Wiggington, on the 18th, twin girls.

To Lease Around Fordsville.

The Fordsville Argonaut, speaking of the Ohio county oil fields, says:

Our hustling liveryman, Chas. E. Miller, informs us that a gentleman from Oklahoma, representing an oil company, has made arrangements with him to drive over the country surrounding Fordsville for the purpose of leasing land to drill for oil. They will commence work in the spring.

Ouch!

"How can you make something out of nothing?" asked the Cheerful Idiot.

"Get us up an argument over the future of the Republican party," replied the Boob.

May 28 and 29 have been chosen as the dates for the Confederate reunion at Chattanooga.

MR. H. M. GIBBS, of Lawrence, Kan., R. F. D., No. 3, writes: "I had a mare with an abscess on her neck and one 50c bottle of Sloan's Liniment entirely cured her. I keep it all the time for galls and small swellings and for everything about the stock."

SLOAN'S
LINIMENT

is a quick and safe remedy for hog cholera.

Governor of Georgia uses Sloan's Liniment for Hog Cholera.

I heard Gov. Brown (who is quite a farmer) say that he had never lost a hog from cholera and that his remedy always was a tablespoonful of Sloan's Liniment in a gallon of slop, decreasing the dose as the animal improved. Last month Gov. Brown and myself were at the Agricultural College building and in the discussion of the ravages of the disease, Gov. Brown gave the remedy named as unfailing."

Practically a Daily at the Price of a Weekly

No other Newspaper in the World Gives so Much at so Low a Price.

This is a time of great events and you will want the news accurately and promptly. The Democrats, for the first time in sixteen years, will have the Presidency and they will also control both branches of Congress. The political news is sure to be of the most absorbing interest.

There is a great war in the Old World; and you may read of the extinction of the vast Turkish Empire in Europe, just as a few years ago you read how Spain lost her last foot of soil in America, after having ruled the empire of half the New World.

The World has long since established a record for impartiality, and anybody can afford its Thrice-a-Week edition, which comes every other day in the week, except Sunday. It will be of particular value to you now. The Thrice-a-Week World also abounds in other strong features, serial stories, humor, markets, cartoons; in fact, everything that is to be found in a first-class daily.

FOLEY KIDNEY PILLS

FOR BACKACHE, KIDNEYS AND BLADDER

EIGHT HEARTS WERE FOUND IN FOUR PERSONS

Mother and Three Children, Normal in Other Respects, Possess Them.

Easton, Penn., Jan. 18.—A case said by physicians to be the first in medical science was discovered here yesterday by Dr. James A. Morgenstern, when he was called to the residence of Berton Perkins to attend one of the children who was suffering from chickenpox.

The case was an unusually severe one and the physician made a minute examination. When he placed his hand on the right side of the child's chest he was amazed to find a heart beating there, and a moment later was astonished to find another heart on the left side.

It led him to request Mrs. Perkins to allow an examination of herself and the other children, and the physician found, that not only the child, but the mother and two other children in the family each had two hearts.

To-day, accompanied by several of the leading physicians of the city, another visit was paid to the house, when Dr. Morgenstern's discovery was confirmed.

Mrs. Perkins and her children, Anna, Allen and Doris, aged 13, 11 and 4, respectively, are apparently normal in all other respects.

Local physicians are so deeply interested in the discovery that one of the children is to be brought forward for observation at the next meeting of the Northampton County Medical Society.

Fever Sores.

Fever sores and old chronic sores should not be healed entirely, but should be kept in healthy condition. This can be done by applying Chamberlain's Salve. TAKES HIS OWN LIFE—NO CAUSE IS ASSIGNED

Springfield, Ky., Jan. 18.—Goodloe Barnett, 23, who lives near Kirtland, the northern part of West Virginia county, committed suicide late this afternoon by hanging himself. He had been to Mercer county to-day to get a load of goods for his father's store. Returning late in the day he immediately went to the barn to feed his team. When after a long time he did not return, one of the family went to look for him and found him hanging from the loft of the barn. He had given no intimation of an intention to end his life. He left no explanation of his act and his

family is unable to account for it. Mr. Barnett was the son of George Barnett, who conducts stores at several points in the county. Barnett was unmarried.

By virtue of a judgment and order of sale of the Ohio Circuit Court, rendered at the October term, 1912, in the above cause for the sum of \$418.95, with interest at the rate of 6 per cent. per annum from the 3d day of February, 1913, until paid, and ——— costs herein, I will offer for sale by public auction at the court house door in Hartford, on Monday, the 3d day of February, 1913, about one o'clock p. m., upon a credit of six months, the following described property, to-wit:

A tract or parcel of land on Adams Fork creek in Ohio county, Kentucky, and bounded as follows: Beginning at a stone S. E. corner to H. Brown; thence S. 89 E. 91 1/2 poles to a stone; thence N. 1 E. 154 poles to a stone; thence S. 89 E. 30 poles to a stone, thence N. 1 E. 32 poles to a stone in center of Fordsville and Narrows road; thence with the original line 89 W. 122 1/2 poles to a stone; thence S. 1 W. 186 poles to the beginning, containing 112 acres, and being same land conveyed to H. C. Powers by L. W. Brown, October 20th, 1903, and which deed is of record in Deed Book 24, page 609, Ohio County Clerk's office, or sufficient thereof to produce the sums of money ordered to be made.

The purchaser will be required to execute bond with approved security immediately after sale.

This 14th day of January, 1913.

HE WILL BE SECRETARY TO PRESIDENT WILSON

New York, Jan. 18.—Dudley Field Malone, son-in-law of Senator James A. O'Gorman, has been tendered and has accepted the post of secretary to President-elect Wilson. He will assume the duties of this position after March 4.

William F. McCombs, Chairman of the Democratic National Committee, has informed President-elect Wilson that under the advice of his physicians he must refrain from all official and political activity after the inauguration at Washington March 4.

WANTS TO SEND BABY BY THE PARCELS POST

Anxious Georgian Writes to Postmaster General About the Matter.

Washington, Jan. 18.—The mailing of babies by parcel post is a real infant industry which Postmaster-General Hitchcock is asked to foster.

In the circumstances of his bachelorhood, Mr. Hitchcock is considering seriously the calling into consultation of experts in the transportation of babies, as a letter which he received yesterday presents to him a problem with which he is quite unfamiliar. To add to his embarrassment the letter contains a note of genuine pathos which appeals strongly to the Postmaster General. This is the letter identically as it was phrased and punctuated:

"Ft. McPherson, Ga.
"Postmaster General:
"Washington, D. C.

"Sir I have been corresponding with a party in Pennsylvania about getting a baby to raise (Our home being without One) May I ask you what specifications to use in wrapping so it (baby) would comply with regulations and be allowed shipment by parcel post as the express co are to rough in handling Yours

The name signed to the letter is withheld at the request of Mr. Hitchcock.

As babies in the opinion of the Postmaster General, do not fall within the category of bees and bugs—the only live things that may be transported by mail—he is apprehensive he may not be of assistance to his correspondent.

A Girl's Wild Midnight Ride.

To warn people of a fearful forest fire in the Catskills a young girl rode horseback at midnight was glorious, but lives are often saved by Dr. King's New Discovery in curing lung trouble, coughs and colds, which might have ended in consumption or pneumonia. "It cured me of a dreadful cough and lung disease," writes W. R. Patterson, Wellington, Tex., "after four in our family had died with consumption, and I gained 87 pounds." Nothing so sure and safe for all throat and lung troubles. Price 50c and \$1.00. Trial bottle free. Guaranteed by James H. Williams, m

INDIGESTION FIVE YEARS

Relieved by Vinol.

Strength and even life itself depends upon the nourishment and proper assimilation of food, and unless digestion is good, the whole body suffers.

Mrs. L. D. Cook, Vineland, N. J., says: "I was sick five years with indigestion. My stomach seemed to have a heavy load in it, and at other times it seemed to be tied in knots. Nobody knows how I suffered."

"I tried a great many doctors and a great many kinds of medicine, but nothing did any good until I took Vinol. It has helped me wonderfully. I am improving fast, feel better and am getting my flesh back again. Vinol has done me a world of good."

We know the great power of Vinol, our delicious cod liver and iron tonic without oil, in curing chronic stomach trouble and building up all weakened, run-down persons, and that is why we guarantee to return your money if it does not help you.

Don't Suffer!

"I had been troubled, a little, for nearly 7 years," writes Mrs. L. Fincher, in a letter from Peavy, Ala., "but I was not taken down, until March, when I went to bed and had to have a doctor. He did all he could for me, but I got no better. I hurt all over, and I could not rest. At last, I tried Cardui, and soon I began to improve. Now I am in very good health, and able to do all my household work."

TAKE CARDUI The Woman's Tonic

You may wonder why Cardui is so successful, after other remedies have failed. The answer is that Cardui is successful, because it is composed of scientific ingredients, that act curatively on the womanly system. It is a medicine for women, and for women only. It builds, strengthens, and restores weak and ailing women, to health and happiness.

If you suffer like Mrs. Fincher did, take Cardui. It will surely do for you, what it did for her. At all druggists.
